

June 2015 Technical Meeting

Why it's important to have a SIS certified professional in your facility

Please join us in June for a discussion with Paul Gruhn, ISA Fellow, regarding the importance of having a SIS Certified Professional in your facility. Please see Paul's credentials below.

We Will Discuss:

- ISA Fellow
- Member of ISA 84 (SIS) & 101 (HMI) standards committees
- Author of two ISA books
- SIS Course developer and instructor for ISA
- Developer of world's first safety system modeling software (CaSSPack in 1994)
- Director of ISA Safety & Security Division
- Professional Engineer, registered in Texas
- Member of the Control System Engineer P.E. exam team
- ISA 84 Expert (and former CFSE)

Location: Nevin's Brewing Company
