

2016 Tabletop Show

Join the ISA Will-DuPage Section at the 2016 Tabletop Show. 50+ Exhibitors will be Showcasing their Products, Technologies, and Services. This year we will again have a Technical Seminar and a Networking Event after the show.

Technical Seminar Details:

Selecting the Best Level Technology for the Application

STARTS AT 2:00 PM! Get to the show early!

This presentation will provide an overview of the process for selecting the appropriate level technology to meet the process automation need. During the presentation, we will review the information required to make the right measurement selection as well as cover the differences between the level measurement technologies.

Brent Frizzell, Level Solutions Business Manager

Brent is a graduate of the Rose-Hulman Institute of Technology, earning his BS in Chemical Engineering in 2012. Since graduation, Brent has worked with Endress+Hauser and has held numerous positions of increasing responsibility as Inside Sales Engineer, Solutions Business Manager, and Level Solutions Business Manager. Brent enjoys working with customers to better understand their challenges and provide solutions to improve the client's process efficiency, increase productivity, and reduce production costs.

[Earn professional development hours (PDH) for attending the sessions]

Networking Event starts at 7:45 PM (after the show). No Left Turn will be performing Rock/Classic Rock!
