

March 2015 Technical Meeting

The Expanding Role and Value of People in Industrial Operations

The ISA Will-DuPage Section is pleased to welcome **Dr. Peter G. Martin – Schneider-Electric** as our guest speaker for the March 2015 section meeting. Dr. Martin will discuss The History and Future of Industrial Automation and the Role of People in Industrial Operations.

Dr. Martin is VP and Fellow at Schneider Electric. He has been in industry in a variety of functions at The Foxboro Company, Siebe, Intech Controls, ARC, and Invensys for almost forty years. He is an ISA Fellow member and was awarded the ISA Life Achievement Award in 2009. He is a member of the Process Automation Hall of Fame and was named a Hero of U. S. Manufacturing by Fortune Magazine. He has multiple patents has published multiple books and dozens of papers and articles.

We Will Discuss:

- The impact automation could and should have on the world
- The five eras of industry
- The shifting role of people in industry
- The impact of digital automation systems on industry and people
- The future of automation and control
